

QUALITY POLICY

As a leading designer, manufacturer and assembler of cabinets and enclosure systems for the communications market, including the supply, integration, and service of associated products, Eurocraft Technologies is committed to developing its Quality Management Systems to ensure that the highest possible level of product and service quality is provided to its customers.

The Owner, Management and Staff are responsible for quality control throughout the Quality Management System seeking improvement by constant review and is committed to setting quality objectives which shall be measured and monitored as part of our management review and ongoing continual improvement activities.

The company is committed to applying the requirements of the standard and endeavour to exceed them where possible, incorporating internal and external auditing of the associated processes to determine compliance.

Top-level management is committed to providing the resources required for continual improvement activities and ensuring the planning and support provided is proportionate to the determined risks.

This policy shall be made available and be maintained as documented information, be communicated, understood, and applied within the organisation and be made available to relevant interested parties as appropriate.
